

September Program by Edna Devai

Our program presenter for the September Guild Meeting will be Buff Palm who is an expert Krokbragd weaver. Krokbragd is a three shaft weft faced weave from Norway that utilizes brilliant color combinations. Most commonly rugs, runners and blankets are woven with this technique.

At the afternoon mini workshop there is an opportunity of hands on learning about krokbragd. Please see the registration form on page 3.

Notes From The Past President by Bev Weaver

I want to thank the PPWG membership for electing me to be your president for the past two years. We have accomplished a lot during that time, and I am proud to have been a part of that. And, thanks to everyone who helped me with my duties as president. No one does this job alone.

Also, I want to express my appreciation for the gift that I received at the May meeting. I am a confirmed book collector, especially when it comes to weaving, spinning, dyeing and basketry books. The three books about bamboo are all beautiful and ones that I did not already have in my library. They will be wonderful additions.

Now, back to the loom.....

President's Article by Anne Vickrey Evans

Another year has come to an end and I want to thank Bev for the great job she did as President. I hope to live up to the same standards. I am sure everyone is looking forward to the summer and fiber activities that are planned around the country. Some of us will be attending HGA's Convergence in Long Beach and will be inspired by workshops and exhibits there. Be sure to check out the fiber activities in our Colorado area and consider sending an entry to the El Paso County Fair this summer.

For those new to the board, the usual way of organizing for the upcoming year is to have a board meeting sometime late in the summer. I'm looking at setting it up during the first two weeks of August, and in July will email out several possible meeting dates to find the best day for most of the Board. All current members are welcome to attend any PPWG board meeting. If you want to attend a summer board meeting and are not a board member, please contact me for information about time and place. I am looking forward to a creative, educational and enjoyable guild year.
