NEW: Question and answer sessions in the PPWG library area

PPWG is growing fast, and we have a lot of new members, many of whom are also new to weaving, spinning or dyeing. In order to help our members with their questions, one or two PPWG members will be in the library area for a short period between the PPWG regular meeting and the scheduled program. You may bring your questions about the guild, weaving, spinning, dyeing, general design or other fiber-related topics. These volunteers may not be able to answer your question immediately, but they might suggest a relevant book or point you to another PPWG member who has the experience to assist you.

At the March meeting, Sandy Hutton has agreed to join me to help with this question and answer session. So, bring those questions, whatever they may be, to us and we will do our best to help you find an answer. We will be in the library area shortly after the regular business meeting ends.
