

Pikes Peak Weavers Guild

Magic Fingers: Exploring the Finger-controlled Techniques

Presented by Jane Patrick

November 11, 2011 – 1 – 4pm

Mini Workshop:

The simplest of weave structures can be used to create luscious, irresistible cloth. Using rigid heddle or harness looms, this workshop will focus on how to use yarns, structure, or both to create fabrics where less is more. We'll explore finger-controlled techniques such as leno and brooks bouquet, as well as pile structures such as looping, rya and soumak. Last but not least, we'll look at the highly textural surfaces possible with simple plain weave where novelty yarns, hand-spun yarn, or color and weave are used to create a texture's surface.

Location: Mountain View Church of Christ, 1080 E. LaSalle St., Colorado Springs

Cost: The price is \$12.50 to be sent with your registration form.

Please remember 'First Come, First Served'. There is a limit of 15 participants.

Cancellation Policy: In order to host the workshop we must have a guaranteed enrollment. If you cannot attend the workshop after registering, we will try to fill your spot from a waiting list. If we do not have a waiting list, it is your responsibility to find a replacement person or pay the workshop fee.

Questions: Please contact Sarah Richards sjrichards1@msn.com or Sally Kuhn skuhn@wispertel.net

You can bring your form and check to the November meeting or if you are mailing your form and check, please send it to: Sarah Richards, 3295 Whimsical Place, Colorado Springs, CO 80917
